PRESIDENT ARRIVES AT LITTLE ROCK, ARK

Great Crowds Greet Roosevelt in Arkansas Capital.

WEATHER WAS THREATENING

The City Was Gaily Decorated and Visitors from All Parts of the State Were Present to Welcome Presidential Party.

Little Rock, Ark., Oct. 26.—After an all night journey from Birmingham, President Roosevelt and party arrived in Argenta, a northern suburb of this city, promptly on time this morning. Despite the threatening attitude of the elements a large crowd was present to welcome the president.

The city had been decorated with flags and bunting in honor of the president's visit and the only untoward feature of the day's exercises was the fear that a downpour of rain would occur at any moment. Rain had fallen continuously all yesterday and last night. At 8 o'clock today, however, the precipitation ceased and the streets immediately took on a lively appearance. The city was filled with visitors from all parts of the state. Excursion trains had been run on all lines and it was early apparent that the president's welcome would be lively during his stay here.

When the president's train arrived at Argenta over the Rock Island lines a reception committee, headed by United States Senators Berry and Clarke, Governor Davis and Federal Judge Treibor entered the president's carriage and warmly welcomed him to Arkansas. The president did not alight from his car at Argenta, but the train proceeded to Big Rock, the nearest point to Fort Logan, H. Roots. Here the president and his party alighted and a visit was made to the fort, the party arriving there at 9:30 o'clock. After a brief reception the president inspected the barracks and grounds and expressed his satisfaction at the excellent arrangements for the comfort of the troops. Nearly the entire morning was taken up at Fort Roots, and the start for the city was not made until 11 o'clock. When the carriages were drawn up, the mounted escort of honor took their places beside the president. This escort, which is known as the "Blue and Gray," consisted of 24 civil war veterans, 12 union soldiers and 12 former confederates, and it particularly pleased the president. It was announced that this escort would precede the president's carriage throughout the entire day and act as a body guard.

The president, headed by his escort of honor and accompanied by the reception committee reached the city shortly before noon. The streets were jammed with people and every available house top on Main street had its occupants. The president was loudly cheered as he passed along toward the city park. He repeatedly rose in his carriage and bowed his thanks to the people. At one point in Tenth street the way was cleared with difficulty, so great was the crush. The president seemed pleased with the cordiality of his reception.

The party traversed Tenth street to the city park, which was reached at noon. An immense throng of people had gathered about the stand which was decorated in the national colors. The meeting was presided over by Hon. George W. Rogers, president of the Little Rock board of trade. The president was welcomed to the state and city by Governor Davis and Judge Treibor in appropriate addresses.

When the president stepped forward to respond he was again greeted warmly.

At 4 o'clock this afternoon the party returned to Memphis, from which point, according to the present arrangements, the president, his secretary and Surgeon General Rixey will go to New Orleans, the remainder of the party returning direct to Washington. This division of a considerable number of the president's party will be made to [illegible] which might

lowing the trip to New Orleans, it being the president's intention to come from that city to Washington on a war ship on which he will be accompanied by his secretary and Dr. Rixley.

President Witnesses Fight.

Birmingham, Ala., Oct. 26.—Secretary Loeb, and Secret Service Agent E. B. McAdams, of the local force, engaged in a personal difficulty in the presence of President Roosevelt. The president had just gotten into his carriage to enter the parade, and Secretary Loeb was about to get in with him when McAdams, not knowing him jerked him aside. Mr. Loeb delivered a blow to McAdams, and McAdams replied in kind with an additional kick, when friends jumped between them and explanations were made.

DELIBERATELY PLANS DEATH.

Before Committing Suicide Buys Coffin and Orders Body Cremated.

New York, Oct. 26.—That Miss Anna E. Scott, the girl who killed herself in Atlantic City Saturday because of grief over her fiance's sudden demise, had with careful deliberation arranged for her funeral even to the point of choosing her coffin, became known yesterday.

Telling John Aldrid, Jr., that she expected a friend to die, within two days she discussed calmly the best method of disposing of her own body, and informed the undertaker that she would notify him when he was needed, she said that her friend's name was Anna Smith.

"She does not want to be buried," said Miss Scott, "but has told me she prefers cremation." She asked Aldrid how much it would cost to cremate the body, and on being told the terms, said they were satisfactory.

"Now I'd like to see a coffin," she said.

Aldrid led the way to the rear of the shop and showed her several caskets.

A plain one will do, she said, and it was agreed that a pine board coffin was satisfactory. "You'll probably hear from me on Saturday. Now don't forget, I want the body cremated, and I'll see that you get the money."

The suicide left a message summoning the undertaker to take charge of the body of "Anna Smith," and a note to a friend in which money for the services of the undertaker was enclosed.

DISTILLERS ARE ARRESTED.

Charged with Fraud Against Government on Fifteen Counts.

Greensboro, N. C., Oct. 26—Interesting litigation has begun in the federal court here in the case of the United States against N. Glenn Williams, and the Old Nick Distilling company, indicted on 15 counts for alleged frauds against the government in conducting a big distillery, rectifying and wholesale whisky plant at Williams, in Yadkin county. The trial of the case, which began yesterday probably will require two weeks. Some of the ablest lawyers in the state will represent the defendants and there are 30 witnesses.

On the part of the prosecution, besides many government documents, there are seventy-five witnesses, some from California.

These embrace dispensary managers, wholesale and retail liquor manufacturers, railroad and express agents, telegraph operators, bankers and revenue officers, the purpose being to show that the defendants transported and sold liquors more ethan their sworn reports to the government for payment of taxes show.

Daughter of the Revolution Dead.

Rochester, N. Y., Oct. 26.—Mrs. Sarah Watson Andrews died at Silver Springs yesterday at the age of 102 years. She was born in Bennington, Vt., and was the oldest surviving daughter of the American revolution. She retained her mental faculties to the end.

Reign of Terror Passed.

Washington, Oct. 26.—The state department today received a cablegram from Santiago De Chile stating that the reign of terror said to have existed in that city since Monday is passing, and conditions were quieter yesterday, the committee Monday numbering 15 [illegible]

RUSSIA IN THROES OF GREAT STRIKE

Over Half of European Russia is Already Affected.

COMMUNICATIONS ARE CUT OFF

Many Towns Are Already Isolated on Account of Railroad Strike and St Petersburg Will Be Cut Off Before Long.

St. Petersburg, Oct. 26.—Over half of European Russia is in the grip of the striking railroad men and the strike continues to spread rapidly in all directions.

The roads in the Volga region are at a standstill and today a general strike was proclaimed on the two remaining lines runing out of St. Petersburg. Before tomorrow the capital is expected to be cut off from the outside world by way of the continent. This will also involve the suspension of postal communication. The league of leagues has seized the opportunity to come to the support of the railroad men and has adopted a resolution in favor of a general strike of all professions. The telegraph operators are joining in the movement, and the suspnesion of railroad traffic, it is feared, will be followed by a complete obligation of the communication between interir points. The situation is critical and pregnant of all sorts of dire possibilities.

The factories in the affected districts have been forced to shut down for the lack of fuel and Moscow especially faces not only a food, but a water famine. Fortunately, St. Petersburg will have a source of supply through Finland.

British Ambassador Sir Harding called on the emperor yesterday previously to leaving St. Petersburg on a mission in connection with the proposed British-Russian understanding, but was unable to start for England this morig.

The Social Democrats believe they have the government at their mercy since with the railroads stopping, the authorities are powerless to transport the troops. This is all the more serious as bloody collisions already have been reported at various places and a dangerous Agragrian movement has again broken out in the government of Samer.

The strength displayed by the Social Democrats have amazed the authorities, who were taken quite as much by surprise at the evidence of their power as they were at the time of the Gapon rebellion. The distress in the provinces is greatly increased by the threatened famine.

Prince Hilkoff, minister of railroads, whose appeals to the strikers at Moscow were so unavailing that he could not get an engineer to bring him to St. Petersburg, but who, with a fireman stoking his own engine, arrived here black and dust-begrimed, is not blameable for the failure of the government to keep its promises to increase the wages. That responsibility rests on the minister of finance.

Prince Hilkoff expects to meet the railroad delegates here but apparently they have already burned their bridges at meetings held last night and which continued until dawn this morning.

A dozen of these, of the most enthusiastic characters, were held. The largest was attended by about 10,000 persons, including students who are making common cause with the workmen and whose leaders are making speeches in favor of a resumption of the students' strike. The students joined the railroad men in passing a resolution in favor of the immediate convocation of a constituent assembly elected by direct universal suffrage and demanding that the laws governing labor be sanctioned by the representatives of the people. These resolutions were adopted after a deputation which called on Count Witte had reported.

Two Bloody Conflicts Reported.

Ekaterro Slav, Russia, Oct. 26—Two bloody conflicts occurred here today between the troops and demonstrators [illegible]

municipal buildings and the second near the Pushkin monument. Numbers were killed or wounded in both instances by the volleys fired by the soldiers. The demonstrators near the municipal buildings refused to disperse, when ordered, and erected barricades. A meeting of students of the schools who are on strike was dispersed by the police who made free use of their whips. A great many of the students were injured.

Calling on Sympathizers.

Warsaw, Oct. 26.—Communication with St. Petersburg is interrupted. Russian agitators are circulating on the Vienna railroad calling on employes to join in the strike.

Anarchy Prevails at Riga.

Copenhagen, Oct. 26.—Anarchy prevails at Riga, Russia, according to a dispatch from there to the Politiken. Riots are frequent and many people have been killed or wounded, and the government spirit shops have been looted and destroyed. The Polytecanic school has been closed.

Disappointed Swain Attempts Suicide.

New York, Oct. 26.—Alfred Dreardo, who walked to New York from San Francisco, to see the girl whom he hoped to marry, tried to kill himself yesterday by jumping from the Williamsburg bridge into the East river. A policeman reached him in time to prevent a suicide. Dreardo said that on his arrival here Sunday he had found that the girl he loved had returned to Italy a few days before. He was without funds and friends and that night the police found him asleep by a bonfire near the bridge. He was removed to Bellevue hospital as physicians said he was suffering from hunger, but later discahrged. He could give no intelligent account of his actions yesterday and was held for examination today.

Virginia Veterans Hold Reunion.

Petersburg Va., Oct. 26.—This city is in gala attire for the meeting of the Grand Camp of the Virginia Confederate Veterans and the annual reunion of Virginia division, Sons of Confederate Veterans, which began a 3 day session here today. The night illumination of the city will be a feature. An interesting event will be a reproduction of the historic battle of The Crater, Thursday. The camp has invited all surviving ex-confederate soldiers who participated in the battle to be present. During the reunion Governor Montague and Representative Lamb will present the battle flags which have been returned by the United States government to the commands which carried them in the civil war.

Atlanta May Have Big Exposition.

Atlanta, Oct. 26.—During the annual meeting of the Atlanta Chamber of commerce on November 28 the movement in favor of an Atlanta exposition in 1910 will be formally launched. Arrangements are already being made for the discussion that will take place that night. Prominent men who have been interested in southern expositions will be invited to be present, among them Hon. David R. Francis, the head of the great St. Louis undertaking. The annual meeting will mark the close of the term of President Robert F. Maddox, who has for two years been the head of the Atlanta chamber of commerce, and whose administration has been signally successful.

Police Think They Have Pirate.

Richmond, Va., Oct. 26.—The police of Manchester think they have in "Bob" Pusick, whom they arrested, the Captain Kidd of the society of yachting pirates charged with looting summer estates, club houses, etc., on Long Island sound. Pusick gives his occupation as automobile and motor boat repairer. The police believe he is Jackson, leader of the gang who is supposed to have fled south.

Lava Pours From Volcano.

San Francisco, Oct. 26.—Mountains of lava over a hundred feet in height have been roared by the volcano which is now in active eruption on the island of Savaii, German Samoa. When the Oceanic liner, Ventur, left Pago-Pago two weeks ago, the hot lava, stones and debris were still pouring from the [illegible]

ISOLATED CASES STILL APPEARING

Great Rejoicing Over the Raising of Quarantines.

RENEWED BUSINESS ACTIVITY

Railroads Will Run Excursions to New Orleans on President's Day and the Crescent City Will Be Crowded with Visitors—Two Cases; One Death.

New Orleans, Oct. 26.—Up to noon today there were two new cases of yellow fever and one death. The death was that of an Italian who died yesterday forenoon but whose certificate did not reach the Marine hospital service in time to be included in yesterday's record. Dr. White returned today from his visit to Mobile.

Showers were predicted for New Orleans today with the probability of cooler weather tomorrow. The outlook, therefore, is for a successful reception to the president, whose visit is regarded as having largely contributed to the early removal of the quarantine restrictions.

While the fever has virtually been driven out, the fact that isolated cases were still appearing would have given excuse to many towns for maintaining their policy of non-intercourse. Anxiety to see the president, however, has resulted in re-opening practically the whole of Louisiana, and Mississippi, with a consequent revival of business activity.

Fully one-half of the parishes in Louisiana have taken down the bars. There is great rejoicing along the Mississippi coast, and families are having reunions there that have been separated for three long months.

Large excursions are coming from the coast to participate in the presidential ceremonies.

The removal of quarantines has resulted in a resumption of the levee building industry. Work has been progressing under difficulties, but will go forward under full pressure now.

As the surgeon, Dr. McMullen, has returned from Hamburg and Roxie, where he conducted a successful campaign against the fever, Dr. Bouchon, believing the struggle over, has gone to Chicago on a vacation.

Reports from the country districts of Louisiana show that the fever prevails now at very few points. In the city less than sixty cases are under treatment.

Getting Ready for Congress.

Washington, Oct. 26—When the senators and representatives return to Washington to attend the approaching session of congress, they will be astonished at the transformation in the capitol. All the flues have been equipped with exhaust fans and other devices to stop the smoke going the wrong way from the fire places. The entire upper portion of the rotunda has been painted and the "steamboat paint" of the sandstone walls has been completely scraped away, revealing the beautiful red-brown color and stratification of the walls. The rotunda now reminds one of the interior of a Greek temple. In place of the old gas jets there has been installed 1,900 incandescent lights.

Man Defies Sheriff and Posse.

Alstead, N. H., Oct. 26—George Ford locked himself in a room of a hotel here and defied the sheriff and a posse of ten men to arrest him last night on a charge of attempted murder. It is alleged that he shot and killed Fred Shortcleve in a quarrel a few minutes before the attempted arrest. Every avenue of escape from the hotel is closely guarded, and the police expect to starve Ford into submission.

Paper Excluded from Mails.

Washington, Oct. 26—El Constitucionale, the semi-official Venezuelan newspaper which has been excluded from the United States mails on account of its publishing lists of lotteries, has, according to advices received here, ceased publishing those lists and will be permitted to circulate [illegible]

ROGERS WILL WORK FOR THE CONVENTION

Wants the Southern Baptists to Meet in Florida Next Year.

A MAMMOTH ORGANIZATION

Membership Represents Every Section of Southern States, and Comprises 8,000—Meeting to be Held in Jacksonville Today.

Rev. S. B. Rogers, pastor of the First Baptist Church of this city, expects to make his departure for Jacksonville this morning, where he has been summoned to meet a committee appointed from the State for the purpose of securing the next session of the Southern Baptist Convention. This convention comprises 8,000 delegates, representing every section of the South, and means a great deal financially to the section in which the meeting is held, inasmuch as it is not a charitable proposition, the delegates paying their own way.

"There is no reason why this convention could not and should not be held in Florida," remarked Mr. Rogers, who is at the head of the work of the Southern Association in this State. "At the last convention it was decided not to hold a meeting in future at any point where an auditorium insufficient for accommodating the convention would be furnished. This is apparently a difficult proposition, as a building capable of accommodating eight thousand people looks upon its face to be rather expensive. But we do not wish a fine structure. All we want is an auditorium sufficient for our demands, and a building of rough boards, so long as it is comfortable and properly arranged, will suit our needs. It would pay Jacksonville, Gainesville or any other city, to erect a rough building of this kind for the distinction and financial benefit that would accrue."

Mr. Rogers believes that the next Southern convention will be held in Jacksonville, as he feels that the progressive citizens of that city will come to the rescue with the funds for the erection of the proper building.

THE MINISTERIAL SOCIETY.

Interesting Meeting Held at the Court House Tuesday Evening.

In compliance with the call published in The Sun, the Ministerial Association convened at the court house Tuesday evening for the purpose of forming or organizing a charity branch of the association.

The meeting was called to order by Rev. Thos. P. Hay, chairman of the association, when Rev. S. B. Rogers of the First Baptist Church, who has always been an active worker, explained the purposes of the same.

The question of the organization of a charity branch of the association was discussed, and it was decided to organize an administrative board. As members of this board the chair appointed C. Matheson, chairman, Ferd Bayer, Dr. J. Prescott Bullock, and Mrs. John W. Tench.

Rev. T. J. Nixon of the First Methodist Church, Rev. S. B. Rogers and Dr. Bullock were appointed to draft by-laws governing the administrative board, said by-laws to be presented at the next meeting for approval.

The chairman was requested to appoint a committee on membership for the charitable association. This committee has not yet been announced, Mr. Hay reserving the privilege of making the appointments later.

There being no further business, the meeting adjourned.

The Hicks Almanac for 1906.

OLD AGE.

Our Local Druggist Tells People of Gainesville How to Ward It Off.

Some people at fifty call themselves old, and really appear so, while others at seventy seem active, vigorous and young.

The reporter of The Sun happened in the store of W. M. Johnson, our local druggist, the other evening, and this subject was brought up. Said Mr. Johnson: "It is a fact and we see it illustrated every day right here in Gainesville. It is not years; old age does not begin at any set time, but it is loss of vital force that makes a person old. A severe sickness, weakened digestion, thin blood, or poor circulation soon starts vitality on the wane and then a person ages rapidly.

"On the other hand," continued Mr. Johnson, "if the people of Gainesville only knew how our cod liver preparation, Vinol, wards off old age, we would not have clerks enough in our store to supply the demand.

"You see, Vinol contains all the vitality making, body-building principles of cod liver oil, but without a drop of the system-clogging oil. It strengthens digestive organs, makes rich, red blood, repairs worn tissues, checks the natural decline and replaces weakness with strength.

"One good customer of Vinol, who is seventy-eight years of age, says he would not take $1,000 for the good it has done him, and we wish every aged person in Gainesville would try Vinol on our guarantee to return money if it fails." W. M. Johnson, Druggist.

Georgia to Raise Quarantine.

Atlanta, Oct. 26.—Georgia's quarantine against Louisiana and Mississippi and other points which have been infected with yellow fever, will come to an end Wednesday. President Willis F. Westmoreland and Secretary H. F. Harris, of the state board of health, will issue an order raising the quarantine and calling in the state's inspectors. Secretary Harris communicated by wire with members of the state board in various parts of the state, it being desired to have an expression from them before any action was taken. A number of replies were received yesterday afternoon and last night, and the orders are expected on Wednesday. The members of the board generally consider that there is no further for maintaining the quarantines and on this account it will be terminated.

Wife Murderer Goes Up for Life.

Des Moines, Iowa, Oct. 26.—E. S. Blydenberg, Iowa's modern Bluebeard, Sunday school teacher and philanthropist, must serve a life sentence for the murder of his third wife. The supreme court today decided that his conviction was legal and affirmed the sentence of life imprisonment. Blydenberg was convicted of murdering his third wife by giving her arsenic in the Sunday dinner he had prepared, while the rest of the family was at church. Two other wives had also died mysteriously some years ago, and Blydenberg obtained their property. Blydenberg was a pious churchman and deacon in the local church. He always maintained that he did not administer the poison.

Makes Homely Women Pretty.

No woman, no matter how regular her features may be, can be called pretty, if her complexion is bad. Orino Laxative Fruit Syrup aids digestion and clears sallow—blotched complexions by stimulating the liver and bowels. Will Not Allow Bank to Open.

San Francisco, Oct. 26.—The state bank commissioners have refused the United Bank and Trust company permission to resume business. It is declared by the commission that officials of the bank misrepresented the assets to the board and to the public.

Well Known Railroader Dead.

New Orleans, Oct. 26.—Matt Kennedy, for many years ticket agent of the Illinois Central and for several years past on its pension list, is dead, aged 68 years. He served with the confederate army and was one of the best known railroad men in the south.

FEATHERED GLUTTONS.

Some Very Greedy Birds That Are Tremendous Feeders.

Despite the fact that "the appetite of a bird" has become a common phrase for light eating, investigations show that birds are tremendous feeders. The diet of the average kestrel (a small European hawk) is calculated at 1,000 mice a month, to say nothing of insects and worms. The barn owl is as voracious as the kestrel. An investigator, after caging one of these birds, gave it seven mice one after the other. The first six immediately disappeared, each with a gobble and a gulp, and the owl did its very best to treat the seventh in a like manner. Limitations of abdominal capacity, however, prevented, and though the gobble came off the gulp did not, so that for twenty minutes or so the tail of the seventh mouse dangled from the corner of the bird's beak. But in due course it swallowed the body, and three hours later the pangs of hunger reasserted themselves and the owl ate four more mice.

Four pounds would be a heavy weight for a heron. Yet one of those birds, which was trapped in England, disgorged two recently swallowed trout, one of which weighed two pounds and the other one and a half pounds. Another captured had contrived to put away three trout averaging three-quarters of a pound apiece, although it was only four months old, and another had dined upon seven small trout, together with a mouse and a thrush.

Among the greediest birds are wood pigeons, which will continue to gulp down food until their crops are almost at the bursting point. From one of these birds, shot as it was returning from a raid in the fields, no fewer than 800 grains of wheat were taken. Another had contrived to cram down no fewer than 600 peas. A third was endeavoring to sustain nature with 180 beech nuts and a fourth with sixty acorns.

Creating the Fashions.

Who sets the fashions? Sometimes an original idea emanates from a humble workwoman, and after fusion in the brain and improvements and suggestions given by the great autocrat it emerges, Minerva-like, in full panoply, complete and victorious. Numbers of diligent seekers, a horde of assistants, voluminous notes, sketches, ideas, are pressed into the service. Artists lend their willing services, while the sartorial adept combines, exaggerates, alters old modes, culling, like the bee, flowers of fancy here and there until the bright vision of beauty is realized and the forthcoming styles are decided on.—London Graphic.

Irritant Drugs.

The use of tea and coffee, says an authority, who includes tobacco as well, is injurious and ought not to be indulged in by those who seek to place themselves in the best condition to resist disease, because they belong in the category of irritant drugs. These, by rousing the vital forces to get rid of the poison, provoke the action which is mistakingly supposed to be an added force, whereas this action is only one of self preservation. It will readily be seen how much supporting and building up of the system there are in such substances by trying to live on them to the exclusion of other things. The result would prove the absurdity of the idea.

A Simple Man.

It takes a neighbor to disentangle a man from a handsome setting. A good many years ago, when Wordsworth was poet laureate of England, a worthy Cumberland yeoman walked many miles, in response to widely scattered notices, to hear the poet laureate address a meeting. When he discovered who held the high sounding title, he left the hall in indignation.

"'Twas nobbut old Wadsworth o' Rydal, efter aw!" he said scornfully on his return to his family.

NEWS OF CITY AND COUNTY CONDENSED

G. F. Parsons of Jacksonville, the clever State manager for the Fidelity Mutual Life Insurance Company of Philadelphia, is spending a day or two in Gainesville on official business.

S. J. Kennard, formerly of this city but now residing in Fernandina, shows that he is interested yet in this section by having his name enrolled upon the subscription list of The Sun. Mr. Kennard is well pleased with Fernandina, but retains fond memories of his old home here. Friends will be glad to learn that he is doing well.

The remains of Mrs. W. D. Fagan were taken yesterday to Providence, her old home, where the funeral services were held, and the interment was made in the Providence burying ground, where relatives are buried. The death of Mrs. Fagan brings sorrow to many Gainesville friends, where she was highly esteemed for her charitable, Christian-like disposition, and she will be greatly missed here.

A PECULIAR FORMATION.

While Drilling a Well at Windsor Pipe and Drill Were Lost.

George Byles of Windsor, a progressive merchant of that town, was a visitor to this city Thursday. Mr. Byles relates an interesting story of a well which was being driven by E. T. Finklea, near Windsor recently. He states that Mr. Finklea, who was anxious for a water supply for irrigation purposes, drove the well to a distance of about 300 feet, when in one night the piping sank and has never been recovered. A drill was placed again in the well, when the same was lost and all efforts at recovery have been unsuccessful. This is evidence that the formation of the earth at this point, as in many other places in Alachua county and this section of the State, is of crest, and is undermined. The well in question up to the time of the disappearance of the pipe gave a prolific supply, the water coming to within twenty feet of the surface. The well is now perfectly dry, and it has been impossible to find a sounding in the two-inch hole which was the original drilling.

INDUSTRIAL EDITION.

The Sun's Many Friends Will be Pleased With It.

The many friends of The Sun and the entire populace of Alachua county will be pleased with our Industrial Edition, which is now being prepared for issue on November 16th. The illustrated features will be of interest to all, and facts regarding Alachua county will set forth its resources in their true light, and show to the world what we have here in both soil and climate.

The business men of Gainesville have taken much interest in the work, by way of advertising, and we appreciate the public spirit manifested. A card in this publication will come before thousands of readers, so if you have been overlooked by our solicitor, come to The Sun office and we will arrange to give you space in its columns, if you are desirous of publicity.

Cures Winter Cough.

J. E. Gover, 101 North Main street, Ottawa, Kan., writes: "Every fall it has been my wife's trouble to catch a severe cold, and therefore to cough all winter long. Last fall I got her a bottle of Horehound Syrup. She used it and has been able to sleep soundly all night long. Whenever the cough troubles her, two or three doses stop the cough, and she is able to be up and well." 25c, 50c and $1. Sold by W. M. Johnson.

A Successful Farmer.

Chas. McKinney of Graham was a visitor to the city yesterday. Mr. McKinney is what might be called a successful farmer in every sense of the word, making about all the necessities of life on his place, with plenty to spare for market. Among his staple crop he has twelve acres of sweet potatoes, and from three-fourths of an acre he has already realized $150 in sales. He believes in sweet potatoes, and declares he will plant twenty acres next year. He also makes fine syrup which sells readily on the market. He expects to make this year several barrels, and has disposed of eight barrels for future delivery.

Cures Chills and Fever.

G. W. Wirt, Nacogdoches, Texas, says his daughter had chills and fever for three years; he could not find anything that would help her till he used Herbine. His wife will not keep house without it, and cannot say too much for it. 50c. Sold by W. M. Johnson.

LAND OFFICE BUSY.

Numerous People Visited This City on Public Land Business Wednesday.

The demand for public or Government lands seems to be steady, and each month many homesteads are being taken up by new settlers, and others who have been in the State long enough to appreciate what really good land may be secured through the Government homestead act.

Among those who were here Wednesday to enter homesteads and make final proofs were D. F. Bennett of Montbrook, Lee T. Fowler of Bronson, and James Welch and Joseph L. Pope of Bell. These gentlemen are desirous of showing the possibilities of the Government soil, and have gone to work in earnest. It goes without saying that they will make a success.

LIST OF JURORS

Drawn to Serve at the Fall Term of the Circuit Court.

Following is the list of jurors drawn to serve at the fall term of the circuit court for Alachua county, which will convene on Monday, November 13:

S. E. Bauknight, Henry Parrish, B. F. Vaughn, Wiley Hines, J. P. Henry, F. W. Polk, W. J. Jones, W. S. Worley, Frank Boals, W. C. Smith, George Peacock, E. D. Phifer, W. S. Tillis, C. M. Stalls, J. M. Beville, E. A. Flowers, H. R Stokes, J. E. Haynesworth, F. B. Atwater, D. M. Bryan, C. V. McQueen, W. L. Slocum, S. L. Crews, J. B. Douglass, A. T. Duren, J. R. Thomas, J. O. Tison, W. P. Boulware, A. J. Feaster, S. F. Waits, G. M. DeSha, A. E. Summers, R. S. Bradley, J. M. Endel, J. W. Bennett, J. L. Crawford.

Doctors Said He Would Not Live.

Peter Fry, Woodruff, Pa., writes: "After doctoring for two years with the best physicians in Waynesburg, and still getting worse, the doctors advised me if I had any business to attend to I had better attend to it at once, as I could not possibly live another month as there was no cure for me. Foley's Kidney Cure was recommended to me by a friend, and I immediately sent my son to the store for it, and after taking three bottles I began to get better, and continued to improve until I was entirely well." J. W. McCollum & Co.

In Mayor's Court.

Manchie Haile and Will Strobhar, two colored hack drivers who are accustomed to meet the trains, seem determined to annoy the officers by going beyond what is known as the dead line. The dead line is a line established beyond which no hackman or hotel porter is permitted to go, unless summoned, under penalty of a stong municipal law, and whenever a fellow in this line of business puts his foot over the line he does so at his own risk.

Haile and Strobhar are ambitious, and for this they should be accorded credit; but, while ambitious, they may also be determined indiscreet, for on Wednesday they "overstepped the bounds," with the result that they were arrested for violating the ordinance, and fined in the mayor's court Thursday morning $1 and costs each, aggregating $9.50. That is what might properly be termed "high" stepping, but they have had a lesson.

John DeBose and John Cowen would not keep their respective places in a sanitary condition, according to the notion of Sanitary Inspector Pinkoson, notwithstanding they had been given fair warning. They were arraigned upon a charge of violating the sanitary law, and were assessed a fine of $1 and costs each.

THE YELLOW FEVER.

Several New Cases and Deaths at Pensacola and New Orleans.

Pensacola, Oct. 26.—Only two cases of yellow fever were reported at noon today and no deaths. The total number of cases to date reached 357; total number of deaths, 70.

Eight new cases and three deaths in Pensacola yesterday shows that the authorities have yet much work to do in stamping out yellow fever. Dr. Porter says, however, that the scourge will be routed before frost comes.

At New Orleans.

New Orleans, Oct. 26.—Yesterday afternoon when the physicians made their reports, nine new cases were added to the list and two deaths.

At noon today there were two cases announced and no deaths. Total cases to date, 3,380. Total deaths, 439.

C. W. Park Stock Company Coming.

They come with a new waterproof tent, new scenery and a new repertoire of plays.

Their tent will be located on the corner of Masonic and East Main St.

Prices 25, 35 and 50c. Matinee on Saturday at 2:30 p. m. Prices 15 and 25 cents.

Saved His Life.

J. W. Davenport, Wingo, Ky., writes, June 14, 1902: "I want to tell you I believe Ballard's Snow Liniment saved my life. I was under the treatment of two doctors, and they told me one of my lungs was entirely gone, and the other badly affected. I also had a lump on my side. I don't think that I could have lived over two months longer. I was induced by a friend to try Ballard's Snow Liniment. The first application gave me great relief; two fifty cent bottles cured me sound and well. It is a wonderful medicine and I recommend it to suffering humanity." Sold by W. M. Johnson.

Jury Provided with Drinks.

Sacramento, Cal., Oct. 26.—In arguing a motion for a new trial yesterday in the case of former State Senator Emmons, convicted of bribery, Emmons' attorney, in alleging misconduct on the part of the jury, had brought into court two dozen empty quart whisky bottles which he alleged were found in the jury room after the trial. C. W. Harb testified that he is keeper of a restaurant where the jury was boarded. He said that the deputy sheriff instructed him to let the jurors have a cocktail before breakfast and beer and wine at meals. It is alleged on behalf of the people that it will be shown that when the jurors entered upon occupancy of the room they found a great lot of empty bottles in it.

Murderer Starves Self to Death.

Butte, Mont., Oct. 26.—James F. Barnes, awaiting trial for the murder of Patrick Hanley in this city Sept. 3, died in the county jail last night apparently from self imposed starvation. Barnes for the past 30 days has refused to touch a morsel of food or drink, bemoaning his fate and expressing terror lest a mob should again attempt to lynch him. Some time ago he made an unsuccessful attempt at suicide, but his stomach was so weak following a prolonged fast that it refused to hold the poison.

New Cure for Cancer.

All surface cancers are now known to be curable by Bucklen's Arnica Salve. Jas. MOTHERHOOD

Actual Sterility in Women Is Very Rare—Healthy Mothers and Children Make Happy Homes.

Many women long for a child to bless their homes, but because of some debility or displacement of the female organs they are barren.

Preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire female organism, curing all displacements, ulceration and inflammation.

A woman who is in good physical condition transmits to her children the blessings of a good constitution. Is not that an incentive to prepare for a healthy maternity?

If expectant mothers would fortify themselves with Lydia E. Pinkham's Vegetable Compound, which for thirty years has sustained thousands of women in this condition, there would be a great decrease in miscarriages, in suffering, and in disappointments at birth.

The following letters to Mrs. Pinkham demonstrate the power of Lydia E. Pinkham's Vegetable Compound in such cases.

Mrs. L. C. Glover, Vice-President of Milwaukee Business Woman's Association, of 614 Grove Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:—

"I was married for several years and no children blessed our home. The doctor said I had a complication of female troubles and I could not have any children unless I could be cured. For months I took his medicines, trying in vain for a cure, but at last my husband became disgusted and suggested that I try Lydia E. Pinkham's Vegetable Compound; this I did, and I improved steadily in health, and in less than two years a beautiful child came to bless our home. Now we have something to live for, and all the credit is due to Lydia E. Pinkham's Vegetable Compound."

Mrs Mae P. Wharry, Secretary of the North Shore Oratorical Society, The Norman, Milwaukee, Wis., writes.

Dear Mrs. Pinkham:—

"I was married for five years and gave birth to two premature children. Lydia E. Pinkham's Vegetable Compound was recommended to me, and I am so glad I took it, for it changed me from a weak, nervous woman to a strong, happy and healthy one within seven months. Within two years a lovely little girl was born, which is the pride and joy of our household. Every day I bless Lydia E Pinkham's Vegetable Compound for the light, health and happiness it brought to our home."

If any woman thinks she is sterile, or has doubts about her ability to carry a child to a mature birth let her write to Mrs. Pinkham, Lynn, Mass., whose advice is free to all expectant or would-be mothers. She has helped thousands of women through this anxious period.

Women suffering with irregular or painful menstruation, leucorrhœa, displacement, ulceration or inflammation of the womb, that bearing down feeling or ovarian trouble, backache, bloating or nervous prostration, should remember that Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of woman's ills, and accept no substitute.

Many Women Have Been Benefited by Mrs. Pinkham's Advice and Medicine.

Report of Cotton Ginned.

Washington, Oct. 26.—The census bureau issued a bulletin today placing the cotton ginned in the United States up to October 18, at 4,940,728 bales, round bales being counted as half bales. The statement is based on reports made by the bureau's special agents in the field.

Boys Armed Like Bandits Arrested.

Chicago, Oct. 26.—Armed, bandit like, with two revolvers each, smoking cigarettes and living in a cave, three boys were arrested yesterday near LaGrange. In the cave the officers found what was left of 25,000 cigarettes, several boxes of cigars and several revolvers.

The demand for carpenters is still very good in Gainesville.

State life insurance is the remedy for the present evil.—Levy Times-Democrat.

Sir Thomas Lipton will try for the America's cup in 1907. It pays to advertise.

The Tampa Tribune is talking now of its "future home." What's the matter with this country?

Business men recognize the fact that advertising pays; but all men who are in business are not business men.

The Panama canal is now set down to be completed in ten years. That is what the consulting engineer says.

The First Regiment of Florida State Troops, in camp at Lake City, have shown that the regiment is under good discipline and a credit to the State.

In Tuskegee, Ala., the platform from which President Roosevelt addressed the citizens of that place was valued at $80,000, being made of bales of cotton.

The Chinese are still in hard luck. Even the presents bestowed on the President's daughter are subject to the same duty as the cannon crackers the boys blow off their fingers with.

It is now known that those Japanese naval officers who got away with $165,000 were partly educated in the United States. Had they been graduates the sum would have been much greater.

There are thousands of people in the North that would come to Florida to reside if they only knew of the abundant resources of this State. They have an idea that half the land is under water.

High rates at this season of the year on the great lakes are the incentive to overload the grain carrying vessels, and that is the cause of numerous disasters. The greed for gain causes many a wreck on land and sea.

The real estate market in this city is steady and the assurance that work will be begun on the new University buildings in December has had a tendency to give dealers more confidence. The coming year will show a vast improvement in Gainesville.

The Minneapolis Journal says: "Secretary Taft's reported statement that he would cause the dismissal from West Point of any cadet guilty of brutal or unfair tactics in the coming football with Annapolis, conveys a hint that the Government's war school is in a fair way to lose eleven good fighting men."

It is reported that the German ambassador, who is expected to arrive at Washington soon, will seek to open formal negotiations looking to a commercial treaty between Germany and the United States. This is regarded at Washington as an indication that Germany appreciates the necessity of assuming a more conciliatory attitude towards this country.

UNPARALLELED PLUNDER.

"Why all this hullabaloo about life insurance extravagance and corruption. Every policy has been paid upon maturity, whether by death or otherwise, and will continue to be paid. What more can be asked?" is the triumphant declarations of the life insurance managers that have been found out and are now on the grill.

A statement better calculated to exasperate and embitter policy holders cannot be conceived. After squandering millions of dollars upon officials, favorites and pets; in buying political pulls from easy-virtued United States Senators and other public officials; in corrupting Legislatures; in contributing by the hundreds of thousands of dollars to the corruption funds of at least one political party; in extravagance of management unparalleled in financial history; in hundreds of thousands put into the hands of servants and no accounting ever asked for; and after all these, and more, to have hundreds of millions of "surplus" left to be used in the schemes invented by "frenzied finance" to plunder policy holders and others outrageously and finally to boast that there is enough money left to pay all death losses and annuities as they mature, is equivalent to telling policy holders in the most brutal way possible that they have been robbed as if by a gang of brigands. If policy holders had been required to pay only the legitimate expenses of conducting the life insurance business all those squandered millions and the gigantic and predatory "surplus" would be in the pockets of policy holders. The whole mass constitutes a scheme of plunder unparalleled.

HOMESEEKERS COMING.

Wilbur McCoy, agricultural and immigration agent of the Atlantic Coast Line Railway Company, returned yesterday from an extensive visit through the Northwest, says The Times-Union.

While in that section Mr. McCoy distributed about 10,000 circulars, advertising the cheap homeseekers' rates to Florida, via the Coast Line, which has already brought several hundred settlers to the State.

"I am positive," said Mr. McCoy, "that on November 14, when our second homeseekers' excursion is run to Florida, we will bring several hundred settlers. The eyes of many prominent farmers are turned toward Florida, and I have been assured that many will settle here.

"Upon the arrival of the second excursion I am going to make an effort to get several of the most prominent members of the party to visit the State Fair at Tampa, so that they can get a fair idea of what Florida raises."

The Industrial Edition of The Gainesville Daily Sun will be on hand for distribution at the Fair, and it will no doubt attract some of these homeseekers to our county. It will have much of interest in its pages regarding the products of Alachua county. It will be a most favorable time for our people to put in a word for Alachua.

We should be up and doing, if we desire to get people to locate here.

The Pittsburg Dispatch says: "An international union of Arctic explorers is proposed in Belgium. The high purpose of it is stated to be the systematizing of Arctic travel. There seems a positive need for this improvement. When it gets fully established we may hope to see the relief expeditions start out at the same time as the aspiring explorers so as to be right on the spot when they are needed."

It is expected that the General Assembly of Iowa will be asked this winter to pass a bill requiring life insurance companies to make a distribution of profits to policy-holders not less than once in five years, and also a bill requiring the investment in Iowa of a certain part of the receipts from Iowa policy-holders.

FLORIDA LOYALTY.

If President Roosevelt came to Florida to see whether the people were loyal to the head of the Government and the Government itself, he must have been more than satisfied with the patriotism manifested. But he could have found out the true sentiment by asking anyone who had ever visited Florida, for there is no denying the statement that the people of this State are as near to the flag as any in the Union.

Had the President been in Florida on last Fourth of July he would have been happily surprised to hear the children sing "Yankee Doodle," "The Star Spangled Banner" and many other patriotic songs. The people of Florida are certainly as loyal as any and they are loyal to all who come here to abide with them.

Jacksonville is to have a Keeley Institute for the cure of alcoholism, morphine and Jamaica ginger habit. If it works successfully on the Jamaicans, there will be a large enrollment from this section. The Keeley treatment is the best in the world, and many ministers, lawyers, doctors, and men now in high standing, can thank the Keeley treatment for saving them from a drunkard's grave.

WASHING WITHOUT WATER

Is Like Trying to Get Rid of Dandruff Without Herpicide.

Did you ever see any one trying to wash themselves without soap or water?

If you did what would you say of him?

It is every bit as foolish to try to get rid of Dandruff and to prevent Baldness by feeding the germs which cause it, with Canthrarides, Vaseline, Glycerine and similar substances which form the principal ingredients of most so-called Hair Vigors.

Newbro's Herpicide is successful because it attacks and kills the parasitic germ which feeds on the hair roots.

It is the original and only genuine scalp germicide manufactured.

Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

WORMS

"I had for years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I "had 'em"—yes—a wiggling, squirming mass left me. Judge our doctor's surprise when I showed him thirty feet, and in another day the remainder (about the same length) of a tapeworm that had been sapping my vitality for years. I have enjoyed the best of health ever since. I trust this testimonial will appeal to other sufferers."

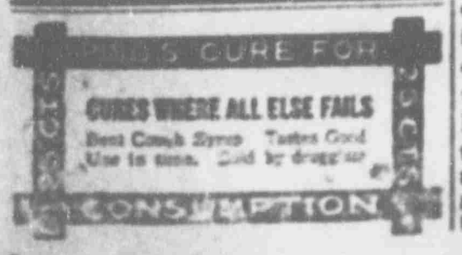
To Prevent Consumption.

Washington, Oct. 26.—The Associated Charities committee on the prevention of Consumption and improvement of housing conditions, has issued a circular letter to be distributed all throughout the city. The committee on the prevention of consumption proposes to deliver lectures in churches, clubs, private parolors and before the organization and institutions; distribute instruction circulars; conduct a dispensary; secure special diet for consumptives unable to afford themselves and provide a sanitarium.



SCOTT'S EMULSION

We don't put Scott's Emulsion in the class of advertised cure-alls; it doesn't belong there. We hardly like to use the word "cure" at all, but we are bound to say that it can be used for a great many troubles with great satisfaction. Its special function is to repair the waste of the body when the ordinary food does not nourish, and this means that it is useful in many cases which are indicated by wasting.

WANTED TO LYNCH AUTOIST.

Crowd Thought Woman Had Been Run Over by Big Machine.

Los Angeles, California, Oct. 26.—Mrs. Thomas Langhelm, of this city, was so severely injured in alighting from a street car last night that death may result, and William R. Ruess, a salesman for an automobile concern, was threatened with lynching at the hands of a mob of excited persons who misconstrued the motive of the latter's kindness in removing the crippled woman to her home.

Mrs. Langhelm stepped from a car while it was in motion, was thrown violently to the pavement and seriously injured.

Immediately following the accident Ruess, driving an automobile, rounded the corner, and comprehending the situation, with the assistance of other passengers on the car, lifted the woman into his machine and started for a physician's office.

An immense crowd had gathered in the meantime and the idea gained circulation that he had run her down with his automobile and for several minutes an aspect of seriousness surrounded the scene.

Cries of Lynch him!" filled the air, and the vehemence of the expressions of the angry crowd made it imperative that Reuss get away hurriedly. Leaving explanations to his friends, he departed at full speed and Mrs. Langhelm was soon under the care of a doctor and was later removed to her home, where she lay in an unconscious condition throughout the night.

Astonishing Incident.

It was, to all her friends, an astonishing incident that Mrs. I. B. Hunt of Lime Ridge, Wis., was cured of her dreadful sickness. "Doctors," she writes, "had given me up; friends were ready to bid me the last farewell; clouds of despair darkened my horizon, and I was a wreck on the shores of despondency, when I began to take Electric Bitters for my frightful stomach and liver complaint. To the astonishment of all, I was benefited at once and am now completely and miraculously restored to health. At all drug stores; price 50c; guaranteed.

Elevated Railway Station Destroyed.

Chicago, Oct. 26.—The new station of the South Side Elevated railroad at which was opened for passengers only a few days ago, was destroyed by fire early today Several trains were stranded between stations. Residents in apartment buildings near the station were aroused by the engines and many of them fled to the street in a panic. The cause of the fire is supposed to have been a derangement in the electrical equipment.

Strenuous Opponents to Race Suicide.

Owosso, Mich., Oct. 26.—Strenuous opponents of race suicide are Mr. and Mrs. Fred Heise, whose twentieth child was born yesterday, all the score of youngsters from Frederick, Jr., who is 21, and the oldest, down to the last little girl, who has just opened her eyes on the world, are healthy and happy. Heise has the contract of oiling the Grand Trunk railroad engines at this place.

Full of Tragic Meaning

Are these lines from J. H. Simmons of Casey, Ia. Think what might have resulted from his terrible cough if he had not taken the medicine about which he writes: "I had a fearful cough that disturbed my night's rest. I tried everything, but nothing would relieve it, until I took Dr. King's New Discovery for consumption, coughs and colds, which completely cured me." Instantly relieves and permanently cures all throat and lung diseases; prevents grip and pneumonia. At all druggists; guaranteed; 50c and $1.00. Trial bottle free.

Count Witte To Be Premier.

St. Petersburg, Oct. 26.—The announcement made in dispatches that Count Witte would shortly assume as premier and head of a responsible cabinet, now seems to be fully confirmed. It can be stated postively that the emperor has tendered the position of premier of the cabinet about to be formed to the count, who, however, guarded his acceptance with certain conditions, which were placed before his majesty in the form of a written memorandum. Count Witte is said to have informed the emperor, in his usual fearless manner, that he would accept the position only on the condition that he would be a real premier, with a working cabinet, and not the mere figure head of an irresponsible body.

Mad Cat Attacks Woman.

Macon, Ga., Oct. 26.—Mrs. E. E. Waller is lying at her home in a very critical condition the result of a fierce attack from a mad cat. The strange feline entered the room where Mrs. Waller lay ill, mounted her bed and sank its teeth deep into her arms before any one could render assistance. She was powerless and dangerous wounds were inflicted. The cat was killed by Officer Tom Wilson, who came to the rescue, and the head is now in Atlanta being examined to determine whether the animal was suffering from hydrophobia. Mrs. Waller is the wife of E. E. Waller, proprietor of a lunch room at the southern depot.

Keep Your Head Clear

And your stomach free from Indigestion if you would be happy with your family and your fellow-man.
The surest thing on earth to get a man's system "out of whack" is heavy soggy bread, which is caused by several reasons. First, the material may not be good; second, the cooking may be poor. The best flour in the world will make the heaviest bread if improperly mixed or cooked. WE USE THE BEST FLOUR and our "long suit" is knowing how to mix and bake it. Our bread does not cost any more than home-made, and in many instances it is so much more palatable.

BUILD CANAL IN TEN YEARS.

Demand for Labor is Greater Than the Supply—Need 24,000 Men.

Washington, Oct. 26.—Isham Randolph, one of the members of the board of consulting engineers of the Panama canal, has written a letter to Zina R. Carter, president of the sanitary district of Chicago, in which he discusses canal conditions. The isthmuian canal commission made the letter public today.

Mr. Randolph says he expects the canal to be completed before 1915. The work of preparation, he says, is going on speedily and when the equipment is on hand and the organization perfected, at least 24,000 men will be required on the canal. Much of the present labor is worthless because the demand is larger than the supply.

The application of the eight-hour system to the canal he regards as a lamentable mistake, and will add about 25 per cent to the cost of labor. Mr. Randolph says the whole line "is cluttered up with abandoned French machinery, which cost about $30,000,000, and is now valueless." He declares that any statement foreshadowing the report of the consulting engineers "can be set down as the manufacture of a news monger."

Strength of Mussels.

You must, some time, try to open the shell of a fresh water mussel or a sea clam. You will find one the size of your hand has great strength, although both his muscles may not be larger than those of one of your fingers. I have often seen a boy pick up a mussel and insert his fingers before the shell was quite closed, thinking he would open it again. Few boys can succeed. They usually have hard pulling to get their fingers free. A big mussel can bite hard. Were it not that the edge of the shell, in big specimens, is smooth and thick, a boy might get his fingers cut to the bone.—St. Nicholas.

A Wasp and a Fly.

An observer tells this: "I was once an interested spectator of a short struggle between a wasp and one of those large flies like a bee with a big, flat head. The pair were on the ground, and I watched while the wasp, after probably stinging the fly, deliberately severed the head from the body and then, finding it still too heavy a burden, cut off the tail end of the fly and flew off with the trunk without waiting to perform its toilet. The whole operation took about five minutes, and from the masterly manner the wasp set to work he was evidently a practiced hand."

London Beggars In 1700.

In the year 1700 John Cary had this to say about London and its beggars: "He that walks the streets and observes the fatigues used by the beggars to make themselves seem objects of charity must conclude that they take more pains than an honest man doth at his trade. Beggary is now become an art of mystery, to which children are brought up from their cradles. Anything that may move compassion is made a livelihood, a sore leg or arm or, for want thereof, a pretended one."

Cheerfulness.

Cheerfulness is one of the great miracle workers of the world. It re-enforces the whole man, doubles and trebles his power and gives new meaning to his life. No man is a failure until he has lost his cheerfulness, his optimistic outlook. The man who carries a smiling face and keeps cheerful in the midst of discouragements, when things go wrong, when the way is dark and doubtful, is sure to win.—Success Magazine.

Don't be Imposed Upon.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. These worthless imitations have similar sounding names. Beware of them. The genuine Foley's Honey and Tar is in a yellow package. Ask for it and refuse any substitute. It is the best remedy for coughs and colds. J. W. McCollum & Co.

Fogg—Well, Clara, I bet heavily on the last game. I thought it right to tell you—

Mrs. Fogg—Yes, you bet on the game and lost all your money. For my part, I don't see how a man can rob his family of the necessaries of life and throw everything away in gambling.

Fogg—But, my dear, I didn't lose. I won $500.

Mrs. Fogg—Daniel, you always were a lucky dog!—Boston Transcript.

THE DOCTOR KNOWS.

He Is Not Deceived by the Story His Patient Hands Him.

It was late, the doctor's patients had either passed away or were mending, and he was sitting with a number of his acquaintances in a corner of the club room.

"It's a strenuous life we lead," droned the man of medicine, "with the grim side turned uppermost as a rule, but now and then we get a laugh out of it—a laugh with the lid on, of course; we can't afford to show we're amused. I often wonder," he went on genially, "why some of you chaps ever send for a physician. You don't tell him the truth once in twenty times. You're in a bad way and you're sorry, and to hear you talk I'd think your mouths were cold storage boxes for butter. You suspect that lobster or a rich sauce you ate day before yesterday is at the bottom of the trouble. You know what's curled you up, and you're frightened out of a year's growth for fear I'll learn.

"Accordingly, instead of taking me into your confidence, you tell me an impossible story. And if I cross examine you closely and hedge you in you'll reluctantly admit that you've been somewhat indiscreet. You smoked four cigars Thursday and took six drinks. Doesn't it ever occur to you that I know by your flutters that you smoked from breakfast to bed and took sixteen drinks and six more for good measure?

"If I were to believe you and dose you for your ailments as you describe them you'd never get well. Now and then I have to give you strychnine and nitroglycerin to restore the action of the heart, and to listen to you I might conclude that you'd had too much pink ice at a children's party.

"As I hinted, we doctors get some fun out of it, but what do you do it for? We were not always doctors, we haven't always taken the best care of ourselves, and we're not fools."—Providence Journal.

A Card.

Refuse substitutes. J. W. McCollum & Co.

The Mantelpiece Bottle Experiment.

You find yourself on a picnic perhaps without a corkscrew and with a lot of bottles, all of them with corks in them. Hardly anybody knows what to do. The solution of the difficulty is, however, it seems, perfectly simple: "Place the bottle, cork downward, upon the edge of an ordinary mantelpiece, steadying it, of course, with the hand. Then with a slight impulse turn it so that it falls upon the ground on its base. Pick it up, and you will find that the cork has started. It is sometimes necessary to repeat the operation before the cork can be withdrawn with the fingers. A first experiment with a full bottle of water tightly corked is advisable. A fall direct from that height will have no desirable result."

The present writer can testify to the efficacy of this "minor art." He had, it is true, to arrange his picnic in an ordinary room so as to have the mantelpiece handy. But there was no difficulty after turning the bottle on its base, "with a slight impulse," in extracting the cork from the ruins. There was no need to repeat the operation.—London Spectator.

AN ORDINANCE

To Prescribe the Design and Provide for the Creation of the Public Utility Bonds of the City of Gainesville.

Whereas, under and by virtue of the provisions of an ordinance entitled "An Ordinance Providing for the Issuance of Bonds and the Creation of an Executive Board under the provisions of an Act of the Legislature of the State of Florida, entitled, 'An Act Extending and Enlarging the Territorial Limits and the Powers of the City of Gainesville, a Municipal Corporation Organized and Existing in Alachua County, Florida, and Providing for the Exercise of Those Powers,'" approved 5th September, A. D. 1905, an election was held in the said City of Gainesville, Florida, on the 10th day of October, 1905, to determine whether or not the issuance of bonds provided by said ordinance should be at that time approved by a majority of the votes cast by the qualified electors of said city at said election: and,

Whereas, said ordinance was published in the Gainesville Sun, in full, a newspaper printed in said city, for four consecutive weeks, once each of said weeks, the beginning of such publication being made immediately upon the adoption and approval of said ordinance; and,

Whereas, along with the publication of said ordinance, there was published therewith at the same time, in the same newspaper, at least once each week for four consecutive weeks, the beginning of which publication was made immediately upon the adoption and approval of said ordinance, the Mayor's proclamation calling said election provided for in said ordinance: and,

Whereas, in and by said ordinance the issuance of bonds to the amount of One Hundred Fifteen Thousand Dollars is provided for, and the purpose for which such issue of bonds are to be used is expressed in general terms: and,

Whereas, at said election so held on the 10th day of October, 1905, the issuance of said bonds for the purposes mentioned in said ordinance, provided for, was approved by a majority of the votes cast by the qualified electors of said city at said election: now, Therefore,

BE IT ORDAINED BY THE MAYOR AND CITY COUNCIL OF THE CITY OF GAINESVILLE, FLORIDA:

Section 1—That the Mayor and Chairmon of the Finance Committee of the City Council shall have engraved or printed five per cent coupon bonds of the City of Gainesville, to be known as "Public Utility Bonds of the City of Gainesville," to the amount of One Hundred Fifteen Thousand Dollars, and of the denomination of One Thousand Dollars each, dated the 1st day of January, A. D. 1906, bearing interest at the rate of five per cent per annum, payable semi-annually, at the end of periods of six months from the date of the bond, the principal and interest to be paid in gold coin of the United States of the present standard of weight and fineness, the bonds and the interest thereon to be payable at the office of the City Treasurer of said city; said bonds to become due and payable as follows, viz: Thirty-five of said bonds to become due and payable in fifteen years from the date thereof, forty of said bonds to become due and payable in twenty-five years from the date thereof, and forty of said bonds to become due and payable in thirty-five years from the date thereof. Said bonds shall be signed by the Mayor, countersigned by the President of the City Council, attested by the City Clerk, and shall bear the corporate seal of said city, and shall have the interest coupons attached bearing an engraved or printed fac-simile of the signature of the City Treasurer. When said bonds shall have been executed and signed as herein provided they shall be at once turned over by the Chairman of the Finance Committee to the Board of Public Works.

Sec. 2—Said bonds and the coupons attached shall be in the following words and figures, the blanks left for the number, and the date upon which the bond may become due and payable to be filled in as the number and date of the bond to become due and payable may render necessary:

UNITED STATES OF AMERICA.

Be sure to use a Cream of Tartar Baking Powder

ROYAL Baking Powder is Made of Cream of Tartar and is Free From Alum or Phosphatic Acid

Royal Baking Powder is pure and wholesome beyond question. There is never any doubt of the healthfulness nor of the superiority of the food it leavens.

Consumers are sometimes solicited to buy baking powders other than Royal because they cost less. It is evident to cost less they must be made of inferior ingredients.

Low-priced baking powders — 10c., 20c., 25c., etc., — are made from alum, phosphate or other harsh acid

At most, an alum powder would not lessen the cost of a cake or batch of biscuit more than the fraction of a cent. But can you afford for any sum to endanger your health by making your food with a dangerous baking powder?

"I regard the use of alum baking powders as highly injurious to the health of the community, and believe that their sale should be forbidden by law."—GEO. F. BARKER, M.D., *University of Pennsylvania.*

Deputy Sheriff J. H. Granger left yesterday for High Springs, Wade and other points with the list of jurors who have been drawn for the fall term of the circuit court. His business is to summon these jurymen, commanding them to appear at the proper time. Court convenes on November 13, and a list of the jurors will be found elsewhere in this paper.

C. W. Bauknight of Archer, one of the leading merchants of that progressive town, was in the city yesterday and made The Sun an agreeable business call. He reports trade very good, but, with "the rest of the folks," complains of the low prices of cotton, as it deprives the grower of real value of the staple. Cotton, considering the shortage of crop, is lower this season than for many years. Growers who can afford to do so will hold their output.

J. C. Rhodes, president of R. M. Hughes & Co. of Louisville, Ky., cider and vinegar manufacturers, expects to leave the city in a few days for San Francisco, Cal., where he will establish a branch house. His wife and child will go to Savannah to spend the winter, while Mr. Rhodes is establishing the business in the Golden State. Mr. Rhodes is a thorough business man, and himself and family will take with them the best wishes of their many friends in Gainesville.

L. E. Black and a party of friends decided to take a fishing trip early yesterday morning, and accordingly arose early and proceeded to Alachua sink, which is conceded to be one of the finest fishing grounds in the State. The party was favored with unprecedented luck, having caught with hook and line fifty-seven pounds of fine fish in just one hour. Mr. Black, who is visiting here from Tampa, is very much impressed with this city and section, and may decide to locate here. He is an enthusiastic sportsman, and one of the most accurate shots in the State.
